92nd ANNUAL CONFERENCE OF

The Indian Mathematical Society

An International Meet-2026

South Asian University

Gaushala Road, Maidan Garhi, New Delhi-110068

December 23-26, 2026

ABOUT THE IMS AND THE CONFERENCE

The Indian Mathematical Society (IMS) is the oldest mathematical society in India, which was established in 1907. The society hosts its annual conference in various parts of the country each year. The 92nd annual conference of the Indian Mathematical Society -An International Meet will be held at South Asian University, New Delhi, India, from December 23 to 26, 2026. The goal of the conference is to stay up to date on the most recent advancements in mathematics.

The IMS has played a significant role in promoting mathematics education, research, and scholarly interaction in India. Founded by V. Ramaswami Aiyar, the Society has provided a platform to engage mathematicians, researchers, teachers, and students through conferences, lectures, publications, awards, and other academic activities. The Society also has a proud historical association with Srinivasa Ramanujan, whose early work appeared in the Journal of the Indian Mathematical Society (JIMS). Through its annual meetings and academic programs, IMS continues to support collaboration among mathematicians and inspires young researchers in pure and applied mathematics.

ABOUT THE ORGANIZING INSTITUTE

South Asian University, New Delhi, is an international university established by the member countries of SAARC with the inspiring motto "Knowledge Without Borders." It promotes higher education, research, and regional cooperation among students and scholars from South Asia. The university offers postgraduate and doctoral programmes in areas such as mathematics, computer science, economics, legal studies, international relations, sociology, and biotechnology. Its academic environment brings together students and faculty from different South Asian nations, encouraging cultural and intellectual exchange. South Asian University plays an important role in strengthening academic collaboration and research across the region.
